FABIÁN VÉLEZ VICENTE

fabianvvicente1@gmail.com | +1 (347) 815-8054 | novu.works | linkedin.com/in/fabian-velez-vicente | github.com/eresfavolosx

SUMMARY

Hybrid Creative Technologist, AI Product Leader, and Computer Engineer (4.0 GPA) with 8+ years turning open-ended human questions into working frontier AI prototypes, interactive web experiences, and high-scale growth systems across higher education, fintech, and civic infrastructure. US Citizen (San Juan, PR).

SKILLS & TECHNICAL CANVAS

- **Frontier AI, LLMs & Agentic Orchestration:** OpenAI API & Codex, Anthropic Claude, Gemini 2.0 Flash | Autonomous Tool-Calling & Function Calling | 100-Point JSON Critique Rubrics | Prompt & Context Engineering | Multi-Agent Systems
- **Creative Technology & Interactive Web:** JavaScript/TypeScript (React, Next.js 16, Node.js, Vite) | Three.js WebGL Shaders & 60 FPS Procedural Physics | WebRTC Computer Vision & LMS Daltonization | Capacitor & Web NFC Hardware Bridges
- **Decision Science & Lakehouse Architecture:** SQL & T-SQL | Python (PySpark, Pandas, Playwright) | Databricks Lakehouse (40M+ Sessions) | Firebase Cloud Firestore | Looker, Power BI, Tableau & GA4 Telemetry
- **Product Strategy, Growth & Leadership:** Go-To-Market (GTM) & Product Positioning | Generative Discovery & CRO | Agile/Scrum SDLC (Jira, Asana) | Stanford University Innovation Fellow | Bilingual (English/Spanish)

PROFESSIONAL EXPERIENCE

Money Group | AI Product & Creative Technology Lead (Frontier Workflows & Tool-Calling) | March 2026 – October 2026

- **Frontier AI Prototyping & Agentic Orchestration:** Engineered **20+ custom AI skills and live autonomous agent workflows** using Anthropic Claude and OpenAI tool-calling, compressing idea-to-prototype deployment cycles from days to **under 4 hours**.
- **Interactive Web Builders, REST APIs & SDLC:** Partnered with Software Engineering across Asana sprints to scope, QA/UAT, and launch **30+ interactive platform features** via REST APIs and function calling across a **$1 Billion+ ecosystem** (5 verticals).
- **Deterministic Output Synthesis & Enablement:** Evaluated LLM outputs against deterministic rubrics for **100% telemetry parity** and led hands-on maker workshops to upskill a **15-person cross-functional team** on standardized AI and cloud workflows.

Red Ventures (edX) | Growth, Discovery & Behavioral Synthesis Lead (edX Higher Education Platform) | August 2024 – January 2026

- **Generative AI Discovery Across 1,250+ Portals:** Partnered with Engineering and Product in Jira to deploy interactive Generative AI discovery experiences across **1,250+ edX university pages**, driving a **50%+ discovery lift**, a **3× surge (+200%) in AI-guided learner inquiries**, and a **+38.1% verification lift**.
- **Behavioral Lakehouse Synthesis (40M+ Sessions):** Queried and normalized **40 million+ human learning sessions** using **SQL and Python in Databricks** and server log forensics, achieving **100% telemetry parity** across GA4 and internal warehouse tables.
- **Real-Time Visual Telemetry:** Built automated **Tableau, Looker, and Power BI** observability canvases to monitor system latency and discovery journeys, improving YoY operational efficiency by **19%**.

Viva Studio (Viva Advertising) | Co-Founder & Creative Technology Director (Interactive Storytelling & AI Systems) | January 2018 – Present

- **Interactive Storytelling & Full-Stack Prototyping:** Directed technical architecture, interactive web experiences, and creative strategy across **150+ partner organizations**, reaching **1 Billion+ audience views** and generating **$10M+ in partner value**.
- **Predictive Collaboration Telemetry:** Architected centralized **Looker, Power BI, and PySpark** predictive health models that reduced partner operating friction and cut account churn by **83% (from 30% to 5%)**.
- **AI-Accelerated Maker Studio:** Led a **15-person multidisciplinary team** of developers, designers, and analysts using Agile SDLC and frontier coding agents (**OpenAI Codex, Claude Code**), increasing prototyping velocity by **40%**.

Link Puerto Rico | Co-Founder & Civic Technology Lead (Community Systems & Cloud Infrastructure) | November 2017 – Present

- **Civic Cloud & Full-Stack Architecture:** Directed a **10+ person engineering team** to build and migrate cloud infrastructure (**Azure, Docker, SQL/Firebase, JWT 2FA APIs**) across **100+ custom software deployments** (50,000+ transactions, **$3M+ in civic funding & value**).
- **"Puente a Puente" Loíza Digital Libraries:** Architected a 3-year municipal connectivity initiative across **3 community digital libraries in Loíza**, deploying satellite/microwave WAN and **150+ laptops/tablets in <30 days** to serve **1,000+ residents daily**.
- **Island-Wide Maker Ecosystem:** Founded a **2,000+ member developer community**, curated an LMS with IBM, delivered **50+ workshops for 5,000+ learners**, and organized **4 major hackathons (6,000+ coding hours)**.

SELECTED CREATIVE TECHNOLOGY & AI PROJECTS

- **Procedural Physics Portfolio & NFC Physical-Digital Objects (novu.works · nfc.novu.works):** Coded interactive procedural physics web experiences (Three.js WebGL, 60 FPS spring-damped particle matrix) and prototyped **Tocaito**, a cross-platform mobile and physical NFC tap experience (**Capacitor, Firebase, Vite, Web NFC**) assisted by an autonomous coding agent to connect physical objects with digital play in under 0.4s.
- **JobHelper & FavoBot (github.com/eresfavolosx/JobHelper · jobhelper.novu.works):** Designed and engineered original **Python and LLM agent companions** (`rubric_agent_companion.py`, `supra_engine.py`, Next.js 16, Docker, Chrome Extension) exploring **autonomous reasoning, 100-point rubric critique, and everyday human-AI collaboration** across web, Telegram, and Discord.
- **Picta Assistive Computer Vision (picta.novu.works) & BizPay (bizpay.novu.works):** Built a 60 FPS WebRTC & LMS Daltonization assistive color camera with Web Speech synthesis (**1st Place, Microsoft Include-a-thon**) and a 1.2s ATH Móvil instant creator settlement prototype.

EDUCATION, FELLOWSHIPS & HONORS

- **B.S., Computer Engineering (4.0 GPA — Summa Cum Laude)** | Universidad Politécnica de Puerto Rico (Coursework: Data Structures & Algorithms, Software Engineering, Database Management Systems, Object-Oriented Programming, Systems Architecture)
- **Fellowships & Certifications: Stanford University Innovation Fellow (d.school)** | Harvard University Aspire Leaders Program | CompTIA IT Fundamentals+ (ITF+) | Power BI Data-Driven Strategy & Advanced Implementation (UPPR) | Lean Six Sigma White Belt
- **Awards & Distinctions:** 1st Place Microsoft Include-a-thon | 1st Place Hackea por una Causa (Boys & Girls Clubs Youth Mentorship App) | 2nd Place NASA Space Apps Challenge | Red Ventures "Most Likely to say Awesome" Cultural Optimism Award
