Summary

Dynamic Performance Marketing Lead and Technical Product Manager with 8+ years of experience bridging ad-tech infrastructure, AI automation, and high-ROI media buying. Proven track record of directing Agile marketing teams, executing 360° digital campaigns that generated $10M+ in revenue, and optimizing conversion pipelines. Highly resourceful leader equipped with deep technical fluency in data analytics (Databricks, SQL) and agentic workflows, enabling seamless collaboration with stakeholders to drive user acquisition and maximize marketing operational efficiency.

Skills

- **Performance Marketing & Revenue Ops:** Media Buying | 360° Campaign Management | SEO & Lead Generation | ROAS Optimization | B2B & B2C Strategy
- **Product & Project Management:** Technical Project Management | Agile / Scrum | Sprint Planning | Jira & Asana | Bilingual (English/Spanish)
- **Data & Ad-Tech Architecture:** Data Pipelines (Databricks, SQL) | Cloud Infrastructure (Azure) | Data-Driven Analytics (PowerBI)
- **AI & Automation Strategy:** Generative AI | Agentic Workflows | LLM APIs (Anthropic Claude, OpenAI Codex) | Process Automation

Media Buyer — **Money Group** — **March 2026 - October 2026**

- **Performance Media & Ad-Tech:** Managed the development of proprietary internal ad-tech tools and an AI-powered website builder, driving company-wide adoption to optimize media buying and revenue operations across a 100+ employee organization.
- **Campaign Automation:** Directed the engineering of 20+ automated agentic workflows using Anthropic Claude to generate complex performance reporting, track KPIs, and execute real-time marketing campaign adjustments.
- **Agile Marketing Leadership:** Orchestrated sprints in Asana and managed the end-to-end lifecycle for over 30 new marketing technology features, architecting dynamic integrations via REST APIs.
- **Operational Efficiency:** Deployed unsupervised AI agents to autonomously manage internal business operations, real-time alerts, and correspondence routing, saving hundreds of hours across media and revenue teams.

Growth / SEO Analyst (edX) — **Red Ventures** — **August 2024 - January 2026**

- **SEO & Conversion Optimization:** Led the strategic deployment of Generative AI and logic-based front-end personalization rules across digital properties, achieving a **+200% lift in AI-driven leads** and a **+38.1% verification increase**.
- **Marketing Data Analytics:** Leveraged Python and SQL (Databricks) to oversee scalable data pipelines, querying and reconciling massive datasets (40M+ sessions) to structure high-quality inputs for enterprise revenue analytics.
- **Cross-Functional Tracking:** Led cross-functional debugging via real-time monitoring dashboards, tracking system failures, QA tickets, and sprint deployments in Jira to ensure uninterrupted marketing performance.

Co-founder — **Viva Advertising** — **January 2018 – Present**

- **360° Campaign Execution:** Directed an Agile team of 15 (media buyers, designers, and developers), successfully executing full-funnel marketing campaigns that generated **$10M+ in revenue** and over **4 billion impressions**.
- **Client Acquisition & Strategy:** Translated client business goals into technical marketing execution, formulating ad-tech architecture plans to build high-converting platforms for 150+ enterprise clients.
- **Marketing AI Automation:** Architected end-to-end agentic workflows, integrating OpenAI Codex and Anthropic LLMs to automate complex content generation pipelines and eliminate marketing operational bottlenecks.

Co-Founder — **Link Puerto Rico** — **November 2017 – Present**

- **Product Launches & Growth:** Managed the deployment of scalable Azure infrastructure, successfully supporting 3.8K+ concurrent users for high-traffic platforms to drive engagement and retention.
- **Tech-Driven Community Building:** Managed software development lifecycles (SDLC) for 80+ startups, directing the creation of an internal LMS to train and organically acquire 5,000+ local innovators.
